

HF 310 TIMBER/ALUMINIUM WINDOW

PROPERTIES

	Thermal insulation	U_w as low as 0.62 W/(m ² K)
	Sound reduction	up to 46 dB
	Security	RC1N, RC2
	Locking	concealed
	Construction depth	85 mm

I-tec Glazing

HF 310
 HF 310 ensures living comfort, not only because of its timber inside surface. The rounded edges of frame and sash convey a cosy atmosphere inside and outside. Highly insulating thermal foam and the all round bonding of the glass pane (I-tec Glazing) ensure excellent thermal insulation and stability. Triple continuous gaskets prevent water from reaching the timber areas.

ECLAZ®

Daylight is crucial for our human organism, our wellbeing and our health. Therefore, Internorm windows are equipped with premium glass coating ECLAZ® as standard. The blue components of the light spectrum are transported through the glass more and ensure up to 10 % more daylight. Compared to conventional market glazing, ECLAZ® is offering:

More aesthetics – colour-neutral outside view, a combination of function and aesthetics

More light – up to 10% more daylight – better for health and wellbeing – a significant advantage especially in the dark winter months*

Visual comfort – for a brilliant view to the outside

Room comfort – makes living areas even lighter and friendlier

Energy efficiency – excellent insulation of interior thus reducing heating costs - increased energy efficiency in building - up to 11 % less CO₂ emissions

* In direct comparison to same glass buildups.
