I-tec Glazing

I-tec Insulation

CONTINUOUSLY
EFFICIENT.
SAFETY ALL AROUND.

I-Tec Glazing: All-Round Innovation

To ensure maximum security for your home, our windows are equipped with I-tec glazing. Many windows are only connected to the frame at a few points. Our I-tec glazing however, offers continuous all-round fixing of the glass pane as standard. This continuous bonding significantly improves the windows stability, thermal insulation, sound insulation and security.

I-Tec Insulation: Greater Insulation

For greater energy efficiency, we use I-tec insulation throughout our UPVC-aluminium window range. Our windows are filled with granulate instead of foam, enabling the smallest of gaps to be filled. This provides high levels of insulation, helping to keep heating costs low.

YOUR ADVANTAGES

I-tec Glazing

- Maximum burglary protection
- Increased stability
- Increased thermal insulation
- Improved sound reduction

YOUR ADVANTAGES

I-tec Insulation

- Granulate instead of foam
- Improved thermal insulation
- Hollow chambers filled completely

ECLAZ®

THE PREMIUM GLASS COATING

At Internorm, we offer enhanced thermal insulation glazing as standard. The ECLAZ® offers unprecedented thermal insulation, making it extremely eco-friendly. It also offers high transparency, ensuring up to 10% more daylight. Combining energy savings with improved comfort, the ECLAZ® is eco-innovation at its best.

Eco-Friendly - offers excellent insulation and lowers CO₂.

Energy Efficient - combines energy savings with improved comfort.

Enhanced Natural Light - enjoy up to 10% more daylight.

Great Aesthetic - extremely translucent offering a brilliant view to the outside.
